

## ITMD 463/563 Project 0

This is project 0. Here is what you need to do:

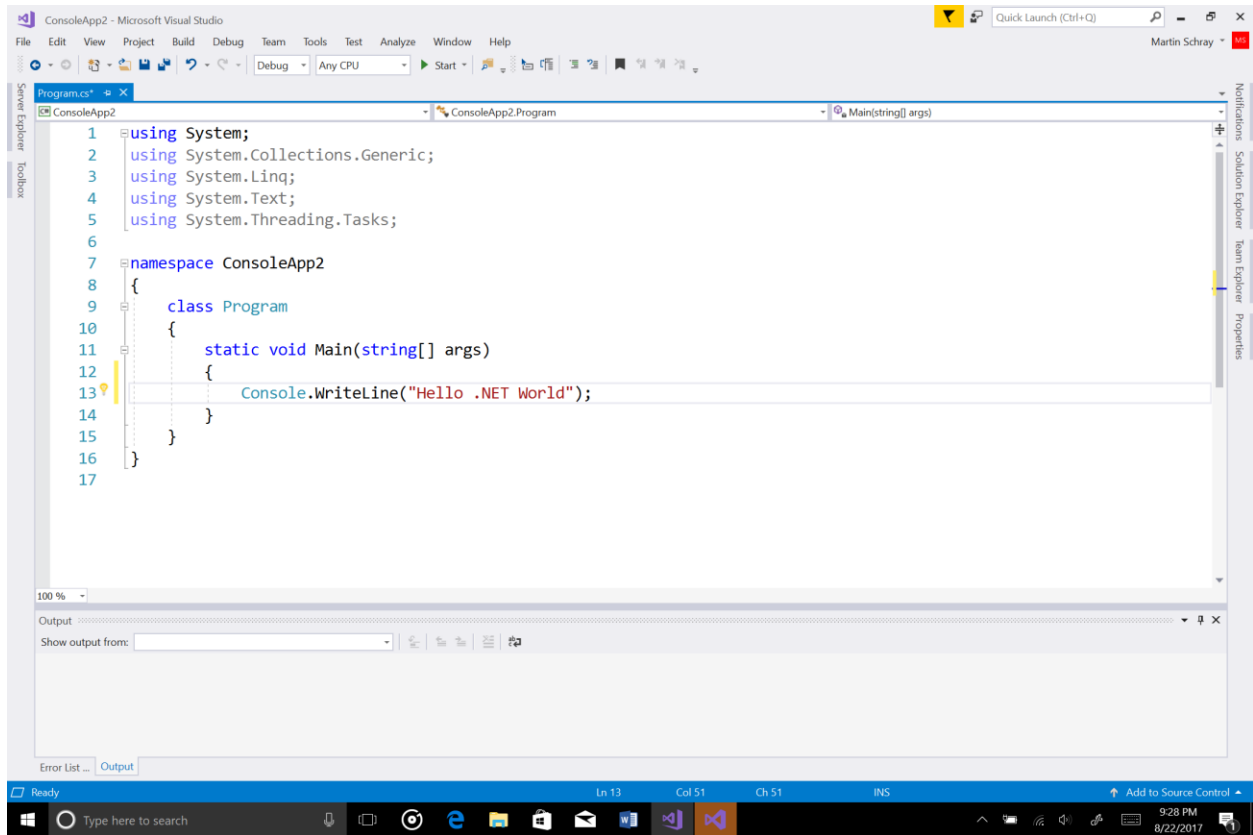

1. Install Visual Studio 2017 Community Edition - <https://www.visualstudio.com/thank-you-downloading-visual-studio/?sku=Community&rel=15>
2. After installing Visual Studio 2017 start it
3. From the file menu pick File>New>Project

4. From the dialog that opens pick Console App (.NET Framework)

5. Make the canonical Hello World app seen below:

6. Zip the entire directory the project is on and upload
